

Our "CloudOps" Microsoft 365 (M365) Service lets you stay focused on your business.

MANAGING YOUR M365 ENVIRONMENT FOR A LOW MONTHLY FEE

OVERVIEW

M365 is a powerful and comprehensive suite of applications that can help businesses of all sizes improve their productivity, collaboration, and communication. However, managing M365 can be a complex and time-consuming task, especially for organisations with limited IT resources.

That's where Figure8 can help, whether you're new to M365 or a long time customer, our **CloudOps Service** can help you manage the many day to day tasks involved with keeping your environment up to date and secure, while removing complexity and cost from your IT environment.

OUR OFFERING

At Figure8 we offer a cost-effective managed service to make sure that your M365 environment is being monitored while ensuring day-to-day tasks such as backups, preventing data loss, managing user accounts, and maintaining a high Microsoft Security Score are being continuously checked and improved.

In today's market, it is expensive to hire and retain experienced in-house IT resources, which often need to span multiple IT disciplines such as Backup, Security and Server management, to name a few. At Figure8, we maintain a multi-disciplined IT team for you so you don't have to, saving you time and effort so that you can focus on what you do best.

With our expertise, you can have peace of mind knowing that your M365 environment is secure, efficient, and properly maintained, so talk to us today about how we can help to save you time and money managing your M365 environment with our **CloudOps service**.

AT A GLANCE

We Provide
